

## Camp Unalayee

### Equipment List For Campers

Weather at Camp can be hot during the day, always chilly at night, and may have occasional rainstorms. Campers spend the whole time outdoors so clothes will get dirty. Campers do laundry by hand only as an optional activity.

**Please label everything clearly with your Camper's name.** This includes socks.

Camp Unalayee is not responsible for lost or misplaced items. Although we do our best if things are left at camp, Unalayee does not pay shipping for returned items and it may take many weeks to get the lost items back from Camp. As well, unclaimed and unlabeled items at the end of each season are donated. We have lost and found sessions where campers, while in the basin, can look for and keep track of their equipment.

No electronics, please! Cell phones, iPods, MP3 players, portable DVD players, Nintendo DS and other handheld gaming consoles, kindles, ipads, tablets, laptops, etc., are not allowed at Camp. If they are brought for use on the bus, while at Camp they will be stored in a secure lock box. **Cell phones may NOT be used as cameras.**

Please feel free to contact us at anytime with further questions about the best equipment to bring.

### Shoes

Important! Hiking is a part of Camp Unalayee. Please bring good quality shoes and boots. It is also important to have the footwear well broken-in by the time campers arrive. They will be walking everywhere they go. It is especially important to have footwear that will keep campers feet dry in years when we have a wet spring preceding the summer season.

### Base Camp Pack List
